

RF POWER KIT 800 W

The **RF POWER KIT 800 W** is an accessory that gives the possibility to operate the projection screen or the motorized lift when the projector is switched on.

When the projector is turned on, this kit provides the screen with the opening command. Viceversa, when the projector is turned off, the kit gives to the screen the roll up command.

The opening and closing control of the screen can also be given independently, by using the radio frequency remote control supplied with the kit.

IMPORTANT: The **RF POWER KIT 800 W** supports maximum projector consumption of 800 W. Beyond this threshold, the kit will be damaged permanently.

- 1 - Dimensions RF switcher: **96x85x26 mm (WxDxH)**
- 2 - Dimensions RF receiver: **186x35x26 mm (WxDxH)**
- 3 - Dimensions remote control: **43x126x22 mm (WxDxH)**
